Good morning Jim,

The matter that we will need you as a substitute for has been scheduled for March 25. Are you available that day?

The Judge wants to hear motions in limine tomorrow and I would like to file a motion to admit your testimony, which may require a voir dire. Of course, that's not the best use of your time, so I would like to avoid that by accompanying the motion with the affidavit that I have attached, or, even better, with have an affidavit that you already have for use in these situations. The attached affidavit has been cut and pasted from an affidavit I've used previously, so I'm sure you will have to make some changes so that you are comfortable with it. Would it be possible for you to do that and fax it to me by tomorrow morning?

The fax number is 413-781-4745.

Thank you!
